About Me

Business Intelligence Engineer passionate about data analysis and data-driven decision-making. Experienced in dashboard development, data modeling, and data visualization to transform complex data into actionable insights. Proficient in Power BI, SQL, and various BI tools, with a strong focus on delivering effective and user-oriented analytical solutions.

Education & Certifications

School of Information Sciences

Rabat : September 2023 - June 2026

- **Engineering Cycle** : Digital Information Engineering, including Business Intelligence in its curriculum
- **Certifications** : Agile Project Management Certification (Oct 2024), *DataCamp* DataWarehousing Concepts (Dec 2024), *DataCamp* ETL and ELT in python (Dec 2024), *DataCamp* Introduction to DAX (Jan 2025), *DataCamp* Introduction to Databricks (Jul 2025)

Reda Slaoui High School

Agadir : September 2021 - June 2023

- **Preparatory Classes** (PSI): Specialised in Physics, Chemistry and Engineering Sciences

Experience

Lear Corporation

Rabat : February 2026 - August 2026

Implemented a user-centric BI solution for monitoring and managing strategic KPIs.

- Analyzed RFQ (Request for Quotation) data to optimize commercial decision-making and identify new customer opportunities.
- Developed a Python application to automate Excel file import, data processing, and the generation of customized UI/UX dashboards.
- Integrated new modules to address evolving business requirements and enhance analytical capabilities.
- Result: Reduced dashboard generation time from 2 weeks to an average of 30 seconds.

Nouvelle Aveiro Maroc

Agadir : July 2025 - August 2025

Implemented an automated, comprehensive dashboard to monitor and summarize sales KPIs for preserved fish products.

Deloitte & TATA Groups (Job Simulation Via Forage)

Remote : April -May 2025

- Transformed and analyzed data to create tailored dashboards, complemented by a storytelling video to effectively communicate key insights.

Concentrix (ex : Webhelp)

Agadir : July 2024 - August 2024

- Developed a web application for internship applications at Concentrix, named Concentresi.

Personal Projects

End to End Business Intelligence Cloud Project on Azure

- Developed and deployed a BI solution on Microsoft Azure using Azure Data Factory, Databricks, Synapse Analytics, and Power BI to ensure the long-term sustainability, security, and scalability of a bicycle brand's sales Data Warehouse.

End to End Business Intelligence On-Premise Project on Azure

- Led an end-to-end BI project by developing an ETL (Extract, Transform, Load) pipeline using SSIS, designing a Data Warehouse with SQL Server, and delivering a Power BI dashboard to visualize and monitor key performance indicators (KPIs) for Adventure Works.

Interactive Power BI Dashboards with Data Modeling and Transformations

- Created multiple interactive Power BI dashboards across various industries, including Automotive, Food Service, and Agri-Food, with a strong focus on UI/UX design, data visualization, and user experience.

Skills

- **Technologies and Languages** : PowerBI, MS SQL Server, SSMS, SSIS, MySQL, PostgreSQL, Python, Azure, DataBricks
- **Skills**: Data Analysis, Data Cleaning, Data Modeling, Data Visualization
- **Soft Skills** : Storytelling, Business Requirements Analysis , Communication, Collaboration, Pitching

Languages

- **French** (Fluent)
- **English**(Fluent)
- **Arabic** (Native)
- **Tamazight** (Native)

Extracurricular

- **Founder**, BITogether Community
- **Media Head**, JCMP Association
- **Member**, First PMI Student Club in the MENA Region
- **Participant**, Oujda Science Festival
- **Media Head**, CODE-ESI Club
